Suggestion: well worth the stay

Reason for Trip: My son played football at Tropicana Field

Our stay there was short, but amazing. I feel that the staff & employees go out of there way to make it an amazing experience, which I appreciate greatly. We were kept quite comfortable. Also, the aqua massage was BONUS!!

# Message from the Founder

After 27 years in business, my passion and entrepreneurial spirit to create the most innovative massage experience in the world is just as strong as it was in 1989 when the company was founded. Having manufactured 16 generations of HydroMassage products, there are two guiding principles that drive every decision we make:

## *Innovation and User Experience*

Almost any massage product that you try for the first time will feel good. But the real question that we have to ask is, "Do our products provide an experience that is impressive enough for people to actually take time out of their busy lives to come back to use them again and again?"

We knew we were starting to hit the mark when two things happened; 1) doctors reported patients driving longer distances past other practices to use HydroMassage at their offices and 2) health clubs with as many as seven HydroMassage units saw constant usage from members throughout the day. Building upon that success, each day we explore new and unique ways to improve the technology and solutions we provide.

## *Quality and Customer Focus*

A great massage experience was just the first step. We've invested countless time and energy into the design of our products to ensure each system looks and operates exactly the same years from now as it does the day it comes off the manufacturing line, and is simple to maintain along the way.

Regardless of the products they sell or the services they offer, my belief is that every great company must view itself as a customer service organization. Whether we're overnighting a part halfway around the world or offering 7-day per week technical support from our headquarters in Tampa Bay, Florida, one of our defining characteristics is our relentless effort to take care of our customers.

Please accept my most sincere thanks for your business and your trust in HydroMassage.
